⊗ Bailout Bill - HR 1424

This is an unprecedented expansion of government in the financial sector, with the subsequent distribution of funds kept secret to hide the trail of money politics that results. Jerry Lewis voted FOR this bill. This bill authorizes the Treasury Department to use \$700 billion of taxpayer money to purchase "troubled" mortgage related securities from banks and other financial institutions, on terms set by the Treasury Secretary, who now has the authority to manage and sell those assets.

⊗ National Service - HR 1388

The government has no business requiring anyone to perform involuntary service - "voluntarily" or otherwise. Jerry Lewis voted FOR this bill. Reauthorizes the Corporation for National and Community Service programs through 2014 and expands the number of "volunteer" (paid) positions in national service programs such as AmeriCorps from 75,000 to 250,000. CBO estimates the bill costs \$6 billion over five years. The US is the most generous nation on Earth and we have no shortage of charitable work.

☑ Mexican Trucks - HR 1773

This amendment to HR 1773 scrutinizes the Bush administration's pilot program to allow Mexican trucks on US highways. Jerry Lewis voted FOR this bill. Mexican trucks should either be required to meet exactly the same standards (including licensing fees) as US trucks, or they should not be allowed into the US.

⊗ Iran Military Operations - HR 1585

The Constitution does not give Congress the power to delegate this authority to the President. Jerry Lewis voted AGAINST this amendment that would have required Congress to authorize Iran military operations. Amendment to HR 1585 by Rep. Peter DeFazio, HR 1585 would require specific congressional authorization for President to perform any operations in Iran. The US Constitution requires specific authorization of any war through a declaration of war by CONGRESS, not by Presidential decree.

⊗ Foreign Intelligence Surveillance - HR 1927

This bill is a blatant abuse of our 4th Amendment rights to be secure in our persons and not be the subject of unwarranted search and seizure. Jerry Lewis voted FOR this bill. HR 1927 allows warrantless electronic surveillance of targets outside the US regardless of whether they are communicating with someone within the US. Communications companies would be required to comply with surveillance requests and would be provided immunity from lawsuits.

⊗ Thought Crimes - HR 1955

Jerry Lewis voted FOR this bill. The now infamous MIAC report, categorizing veterans as "possible terrorist threats," is a perfect example of why the government should not be making lists of US citizens that are "potential threats" as this bill requires. This establishes a National Commission on the Prevention of Violent Radicalization and Homegrown Terrorism and establishes a grant program to prevent radicalization in the US. Vague and open-ended language could be used to prosecute law abiding Americans.
